HOSE AND CORD REELS

WELDING REELS

30°

HOSE REELS.

Our total, dedicated business.

We've been making hose reels for decades - over 38 years in fact - and this manufacturing wisdom, coupled with competitive pricing, knowledgeable staff, a wealth of technical information and solid after-sales service positions us firmly at the forefront of our industry.

Our head office and factory is based in Sydney Australia, with a well-stocked distribution centre in Auckland NZ, as well as reputable distribution partners across the globe.

ReCoila has a fully equipped production facility and a team of experts to ensure our reels are designed and manufactured to exacting standards.

With a comprehensive range of hose, cord and cable reels and a dedicated custom design and manufacturing team, ReCoila can supply the right reel for your individual application - with safety and productivity in mind.

AUSTRALIAN MANUFACTURING. INTERNATIONAL DISTRIBUTION.

ReCoila is a proudly Australian company based in Western Sydney, with distribution reach across Australia, New Zealand and internationally.

We have resellers strategically based in key metro and regional areas to ensure delivery to customers is as swift as possible, and long standing relationships with our freight carriers mean that logistics are coordinated efficiently.

AUSTRALIAN MADE + QUALITY IMPORTS = COMPREHENSIVE RANGE.

Our range constitutes a wealth of engineered polypropylene and heavy duty steel and stainless steel reels, supplemented with hand-picked reels from some of the world's best manufacturers, to present a truly comprehensive product portfolio. And, our ability to design and manufacture customised reels in-house means that we're sure to have a reel to suit your needs.

SPECIALISTS IN CUSTOM REELS

38+ years manufacturing wisdom

ReCoila is committed to continued quality and engineering excellence, coupled with real-world practicality and constant improvement based on feedback from customers.

Our goal has always been to design the best reels in the world - and we think we're pretty close to the mark.

With teams of specialists for both steel and polypropylene production, we continue to lead the way in design, innovation, functionality & reliability.

WE KNOW REELS – YOU KNOW YOUR BUSINESS.

Whilst we've been building reels for over thirty years, we continue to learn and adapt to individual industry challenges in consultation with our customers.

We have worked with Australian and New Zealand fire brigades, Australian Defence forces, major international mining and resources projects, salmon farms, airports, oil rigs, gas exploration companies, plumbers, truck builders, food manufacturers, wineries, auto workshops, universities and electricity providers, and have built reels to transfer everything from clean air to cow dung.

Our collaborative approach has always resulted in a hose reel that is of the highest quality, whilst being simple, practical and effective for the people in the field who are actually operating it.

THE MAKING OF A CUSTOM HOSE REEL

WELDING REELS

Tougher, safer, more reliable

ReCoila's range of electrical cable, welding cable, twin hydraulic and static discharge reels are sourced from the most respected manufacturers in US and Europe, resulting in a world-class range of welding, cutting, power and hydraulic solutions.

As Australia's only authorised Reelcraft agent, we can bring you a wealth of hose reels suited to processes such as welding, cutting and grounding.

And with our locally made C Series welding reels completing the range, ReCoila can supply the perfect reel for your needs.

C SERIES WELDING CABLE REELS

APPLICATION

The C Series welding reels have all the features of our rugged Australian made C Series range. A 3mm steel plate construction and choice of hand crank rewind, or electric, hydraulic or pneumatic motors means you can choose the perfect reel for your needs.

TW & BA SERIES WELDING & CUTTING BARE REELS

APPLICATION

The TW Series dual inlet reels combine practical engineering with highest quality manufacturing techniques to provide reliable performance. These reels are suited to oxygen, oxygen & acetylene, and propane.

The TW Series twin welding reels are designed with a heavy gauge steel frame, full flow swivels, double sealed O-rings and a spring driven rewind system, resulting in a safer solution for welding hoses in the workplace. The TW Series reels have a spring rewind system whilst the BA Series reels are hand crank.
